

ANNUAL REPORT 2022-23

I am here to present the Annual Report of our school for the Academic Year 2022-2023. Before I proceed, let me share some of the highlights from this academic year:

Orientation Programme and Teacher Workshops:

We began the session with an Orientation programme for parents of Pre-Primary to X-grade students, where we familiarized them with our educational approach.

To enhance the skills and knowledge of our teachers, we conducted induction training and various workshops on curriculum, educational techniques, child development, and child psychology.

Our teachers also participated in training sessions and workshops organized by other schools and CBSE, further updating their knowledge and skills.

Investiture Ceremony:

On 17th June 2022, we held the Investiture Ceremony to appoint the members of our Student Council. This ceremony represents the school's confidence in the newly invested leaders, with Ms Suhani Kore leading as our School Captain.

Academic Enhancements:

Our school follows a learning-for-life curriculum that encourages children's natural curiosity. This year, we introduced a Coding-focused Computer Science Scholastic Curriculum to provide real-world experience and enhance problem-solving skills.

We also have various clubs like Mighty Pens, Eco-warriors, Brain Benders, Heritage Club, Debate Club, Mad Scientist, and Art Mania to foster communication skills, creativity, teamwork, and other essential qualities.

The highlight of this year was the introduction of the Scouts and Guides Club at Glentree. This program focuses on educating young people through a value system based on law and scout's promise, instilling a sense of responsibility and constructive role in society.

Competitions and Life Skills:

To encourage team spirit, confidence, and cultural understanding, we organized competitions in public speaking, creative writing, art, and more.

We ensure that our students learn life skills through academic and extracurricular activities. To assist them in making informed career choices, we integrated with the career guidance portal Mindler, which helps students discover their unique potential.

Celebrations and Social Initiatives:

We celebrated Independence Day with patriotic fervour, followed by various religious festivals to promote harmony among all communities.

Glentree Academy is connected with Thayimane, an organization that supports orphans and destitute children from underprivileged backgrounds. We contributed cash, clothes, toys, stationery, footwear, and food through events like "Diwali Mela" and "JOY of GIVING."

Our students' diligence reflected in the academic achievements, with a 100% pass percentage in the Grade X CBSE exams. We also participated in the Olympiad competitions, with several students winning gold medals, cash prizes, and promising zonal ranks.

The annual sports day was held on December 16th and 17th, where students showcased their athletic abilities and enjoyed various sporting events. Prithvi house emerged as the winners.

Sports Activities and Field Trips:

We organized several sports activities throughout the year, including Inter House Football Tournament, Inter House Throw Ball Tournament, and Inter-House Tug of War. Our student, Master Athiraksh. A of Grade 4 B, represented Karnataka State in the 17th South & West Zonal Taekwon-Do ITF Championship 2022 and won Gold and Silver Medals.

Regular field trips to places like the Planetarium, Prani pet sanctuary, HSR park, and Fire station were organized to provide experiential learning opportunities.

Pre-Primary Highlights:

Our pre-primary curriculum focuses on overall growth, social skills, language development, and logical thinking. Activities like Community Helpers Day, Pot Making, and a talk show were conducted to foster creativity and talent.

Community Helpers Day allowed children to reflect upon the importance of community helpers' services and express gratitude towards them.

Pot making and colouring activities allowed the young minds to showcase their creativity and talents.

The talk show provided students with an opportunity to express their thoughts and feelings freely, resulting in a great show of active and enthusiastic participation.

Other Initiatives:

We organized an Oral Hygiene camp by Warren and coordinated a COVID-19 vaccination drive with the Grama Panchayat, ensuring the health and well-being of our students and staff.

We received multiple awards this year, including the Prestigious Times Education Excellence Award for the best emerging curriculum and the Top CBSE School Award for our exemplary contribution in the field of education.

At Glentree, we strive to develop essential skills in children, empowering them to observe, explore, experiment, analyze, and find solutions, ultimately preparing them for the future.

None of our achievements would have been possible without the dedicated faculty and the support of our school management team.

We have plans for the future, including upgrading our sports facilities with the launch of a top-notch basketball court and constructing new classrooms equipped with state-of-the-art technology to accommodate the increasing number of student admissions.

We are excited to share that our application for CBSE senior secondary extension is under process, and we hope to admit students for 11th grade in the 2024-25 session.

In conclusion, I would like to express our sincere gratitude to all the parents and well-wishers who have supported us throughout the years in our mission to nurture confident, educated, and capable students. We hope you enjoy the cultural program presented by our students and have a pleasurable time with us
